FAEIS

FAEIS is Important to You

The Food and Agricultural Education Information System (FAEIS) compiles nationwide higher education data for agriculture, nautral resources, family & consumer sciences/human sciences, veterinary medicine and other related disciplines. These data include:

· Undergraduate and graduate student enrollment
· Degrees awarded at all degree levels
· Placement at all degree levels
· Faculty numbers and salaries by
· rank and discipline

FAEIS is Used By:

· United States Department of Agriculture (USDA) in responding to congressional inquires to support higher education and related USDA grants.

· Higher education administrators in recruiting and benchmarking students and faculty as well as institutional planning, and regional and national comparisons.
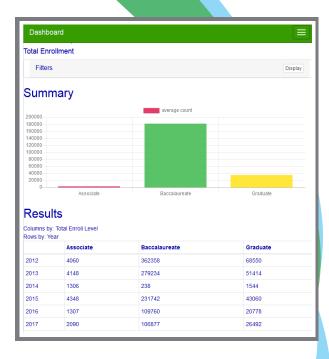

· Other personnel for analytical presentations and papers.

Peer Comparison of Program Area Enrollment

FAEIS Data Can Help You

· Learn about enrollment trends, emerging disciplines, student placement, and faculty salaries.
· Study these data by discipline, institution, or even institution type (1862, 1890, 1994, AASCARR, CAFCS, BOHS, SAF, AAVMC).
· Track trends by gender and ethnicity.
· Create graphs and tables that you can use in reports and proposals.
· Discover the new and emerging disciplines in colleges similar to yours.
· Understand how colleges and universities nationwide are organized, and how agriculture is being redefined to include a broad array of disciplines.

FAEIS Builds Custom Reports

Create your own multi-dimensional reports in seconds with FAEIS Report Builder. You can select, filter, and present the data exactly as you need it. The online Report Builder is fast, convenient, clear, and easy to use. Contact the FAEIS Help Desk for tutoring and assistance on customized reports. Report Buidler can aid in your data search. Give it a try!
